

REJECT NAB Petition 04-160.

I am writing to request your support in rejecting NAB Petition 04-160. I am a satellite radio subscriber. I have opted to PAY for my radio service because it provides me, and my family, more choices in radio programming. Further, as a long distance driver, I find that no one station (on the AM/FM band) provides coverage for my commute. The addition of local traffic has been of benefit to me.

It is a sad day when an organization (NAB) has the nerve to try and impact my choices that I have elected to PAY FOR. If they had a product I liked, I'd listen to it.

This, to me, is just like a telemarketer using the telephone I pay for to solicit me. If the NAB wants to influence my choices, then they should pay me.
